

THULE® SWEDEN

DMH LARGE

DMH Large is our largest and strongest structural profile for tall structures and large spans.

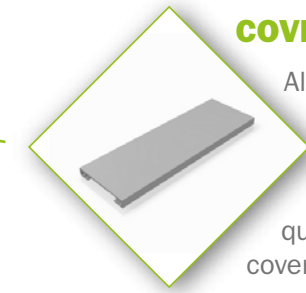

As a supporting structure for larger b62/DMK setups.

COVERS

Aluminium cover profiles for a perfect finish, by hiding the profile holes.

Covers are reusable and quickly mounted by means of cover clips.

SLATWALL

Perfectly integrated alu sandwich panels with milled, horizontal slots, where all kinds of accessories can be hooked on.
